

Taxi Booking App

Problem Statement

To develop an app for taxi riders to book a taxi using just a few clicks.

Solution

- Current and nearby areas of interest displayed on a map
- Booking and cancellation
- Various taxi booking options like type of car, number of seats, special instructions, instructions for drivers
- Favorites locations can be saved
- Profile Management
- Multi-lingual, multi-currency
- Ease of use
- Payment integration in progress
- Sharing rides on Facebook/Twitter in progress
- Taxi location tracking in progress
- Available on both Android & iOS

Technical Details

- C#, Xamrin
